

DISCIPLINED ENTERPRISE IT FOR GOVERNMENT AND DEFENSE

TrueLevel Systems LLC delivers enterprise IT, cybersecurity, systems engineering, and technical program support for government and defense missions. Founder and principal Tron L. Blossom, a Marine veteran, brings 27 years of federal IT experience supporting Marine and Navy, naval aviation, and enterprise environments.

CORE CAPABILITIES

ENTERPRISE SYSTEMS ADMINISTRATION

Windows Server and Active Directory, configuration and change management, patching, and operational ownership of production systems.

CYBERSECURITY

STIG implementation and system hardening, ACAS vulnerability remediation, IAVA compliance, patch management, access control, and security documentation aligned with DoD requirements.

INFRASTRUCTURE SUPPORT

Sustainment for Windows and virtual infrastructure, including planned maintenance, outage coordination, controlled change, service continuity, and knowledge transfer.

VIRTUALIZATION

VMware vSphere and vCenter, host maintenance, virtual-machine lifecycle support, backup, restoration, and disaster recovery.

SYSTEMS ENGINEERING

Requirements capture, interface definition, integration planning, and technical analysis for enterprise and naval aviation IT, including NTCSS and NALCOMIS support when in scope.

TECHNICAL PROGRAM MANAGEMENT

Schedule, risk, dependency, and stakeholder coordination, including maintenance windows, delivery tracking, status reporting, and technical documentation.

DIFFERENTIATORS

DELIVERY

Founder-led technical execution

EXPERIENCE

27 years supporting Marine and Navy, naval aviation, and enterprise IT

PROOF

NTCSS / NALCOMIS and the infrastructure those systems rely on
